# Palliative Care Advice Service

# 1800 360 000

7am–10pm, seven days a week

For everyone  
everywhere  
in Victoria

The aim of palliative care is to improve quality of life for people and families living with life-limiting illness.

**This Advice Service is for everyone in Victoria.**

**Are you living with life-limiting illness?**

**Are you a carer, family member, friend or neighbour of someone who is living with life-limiting illness?**

We can help with questions like:

- How could palliative care help the person I support?
- Where can I find information about being a carer?
- How do I find the right palliative care service?
- What can I do to relieve my pain? My nausea? My breathlessness?
- What do I need to think about and plan for?
- How do I talk with my healthcare provider about palliative care?

**Are you a doctor, nurse or other healthcare provider caring for someone with life-limiting illness?**

Our specialist palliative care nurse or doctor can give help with issues like:

- Symptom management
- Prescribing
- Converting medications from oral to injectable
- Continuous subcutaneous infusions (syringe drivers)
- Decision-making and advance care planning.

We are unable to provide prescriptions, referrals, access medical records or replace the care of local healthcare providers.
